(360) 397-2375 x4064/4568
ron.freer@co.clark.wa.us

City of West Linn
Kelli A. Grover*
(503) 722-5503
kgrover@ci.west-linn.or.us

FLOATING DISPLAY COMING SOON!

Promotional efforts are underway! A three panel table top display will be circulating through the participating jurisdictions on a two week rotation. The display will inform contractor and builders of the program with the intent of building incentive to implement better erosion prevention BMP's.

Fred Wright or a committee member will be contacting you soon to schedule when the display can be set up at your jurisdiction. Or you may contact Fred directly at 503-645-5592 to schedule the display for your jurisdiction.

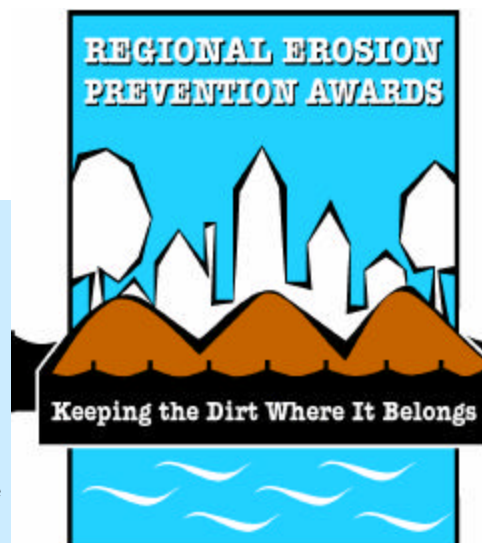

Brochures!

Have you been handing out the Award program brochures?

A few suggestions to get the word out:

- attach one to each permit that is issued.
- set up a brochure display at your city hall, permit counter, department area where contractors pick-up their permits.
- Personally hand them out at job-sites.

Need more brochures? That's what we want to hear! Contact Fred Wright @ 503-645-5592.

Special points of interest:

- Criteria evaluation for single family and non-single family with highest score is Due May 6th, 2002.
- Awards Breakfast Banquet is June 28th, 2002.
- Promote, Promote, Promote the program and let's make a difference!
- FeedBack! - Please contact Fred Wright 503- 645-5592 or a committee member with questions or concerns regarding the program.
- All Input is Welcomed.

CURRENT EVENTS: CONTRACTORS, DEVELOPERS KEEP REUSE IN MIND WHEN WORKING ON PROJECTS

As the old Blitz-Weinhard Brewery fell, it wasn't a giant dumpster destined for the landfill that caught the rubble. Instead, the building was dismantled in such a way that nearly every piece was recycled. All the metal, including old wiring, was reclaimed and sorted in respective piles of

copper, stainless steel, iron and aluminum. Steel reinforcing was separated from concrete and sent to its proper pile. Old timber beams from a former car dealership at the now reconfigured Brewery Blocks site were salvaged for remilling, and even old carpet pulled from offices was sent to the East Coast for reprocessing.
